

Give away and enjoy the smell of Christmas

Decorative scented oranges

What you need is:

- an orange with thick peel
- a ribbon
- a knitting needle
- cloves

Wrap the ribbon crosswise around the orange and knot it so that it lies firmly around the orange and the ends can be used for hanging it somewhere.

Insert cloves into the orange peel at a small distance from each other. Pre-poke the holes with a knitting needle to prevent the cloves from breaking off.

Your scented orange is ready! It will keep for 6-8 weeks, by which time the peel will have dried out. If you hang/place it in a warm place, it will have a particularly intense fragrance.

Give away and enjoy the smell of Christmas

Spice wreath

1. Glue the circle onto coloured card paper, cut out the inner circle first and then the outer circle.

2. Glue several layers of scented spices on to the circle. If you have felt, glue small felt leaves and flowers on it.

3. Glue a ribbon to the back of it to hang up the wreath.
